

Banner Stands

Banner stands are a fast, easy way to display high-impact graphics. All units pack into lightweight carry cases and lighting is available. Every system carries our lifetime warranty against manufacturer defects.

We print on a high quality 7mil stoplight poly film, which blocks out any light or shadows that may show through the banner. We add a 3mil scuff- and glare-resistant face laminate for maximum protection. This combination of materials works extremely well for preventing curl along the graphic edge. Our graphics are warranted for life against fading or delaminating.

RETRACTABLE

Our most popular model, with a compact base and swivel stabilizer foot. Three units can package into a convenient hard case for shipping.

Banner Stands

LITE

A non-retractable system. Some setup is required but still portable and easy to assemble.

PREMIUM 35" x 84"
ECONOMY 35" x 84"

X-STAND

A smaller, simple non-retractable. Perfect for corporate events and directional signage.

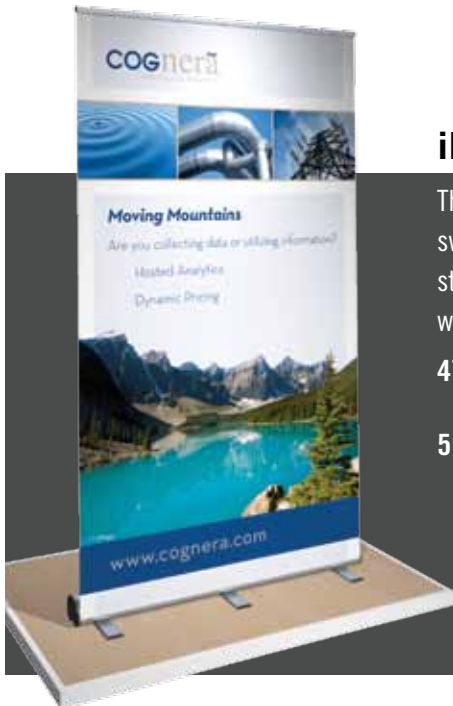

PREMIUM 24.5" x 63"
ECONOMY 24.5" x 63"

DOUBLE

A retractable unit with a single base that holds back-to-back graphics.

33.5" x 78"

iLOOK

Three support poles and swivel feet provide complete stability for this wider system with fabric graphic panel.

47.5" x 82"

59" x 82"

CONTOUR

A curved fabric graphic mounted to a wire support system with a stylish base. Provides a distinctive look that is ideal for semi-permanent locations.

40" x 90"

Banner Stands

MINI ME

A smaller version of our standard Retractable banner stand. Includes carry bag.

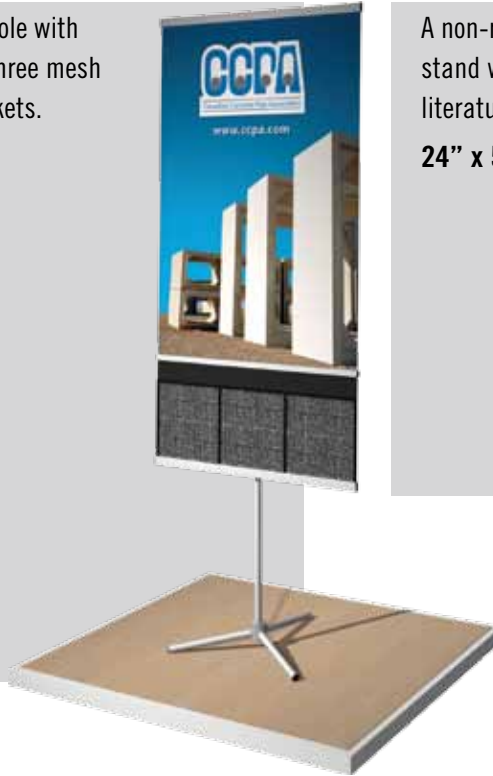

23.5" x 64"

DASH

A telescopic pole with graphic and three mesh literature pockets.

31.5" x 84"

DOUBLE TAKE

A non-retractable banner stand with graphic and two literature pockets.

24" x 54"

TABLE TOP

Our standard Retractable with a shorter graphic and pole.

33.5" x 58"

add table drape

SUPER SIZE

Our standard Retractable banner stand with an additional pole section for added height. Includes carry bag.

33.5" x 106"

Banner Stands

HEIGHT POSSIBILITIES

The graphic for your Retractable banner stand can be designed to display at three different height levels, depending on your needs at different events, or for extended value when you're not at a show.

When you set up your Retractable banner stand with only two pole sections snapped together it is the perfect height for a table top display. For a small graphic space on the reception counter in your office, set up the banner stand with only one pole section.

HYBRID PRESENTATIONS

Starting with a dynamic graphic you can enhance your message with a monitor stand, shelves or a free standing podium. A number of different monitor stands and podiums can be combined to create a unique display and make your presentation work for you.

PURCHASE 3 OR MORE & SAVE 10%

If you want a trade show display that is as light as possible and sets up in minutes, three banner stands may be your solution. Our design team can create individual displays, which when combined make a powerful corporate presentation.

Even when packed in a hard carry case, complete with handles and wheels, your display will weigh less than 45lbs and meet airline weight and size guidelines.
