Gridline

WING

Includes hardware, (4) graphic panels, (2) inside panels, (3) 50W lights, oval shipping case and mural podium wrap.

114"W x 92"H

Gridline is a lightweight, portable and easy to set up exhibit that goes beyond the traditional look of a pop-up. It is made of aluminium extrusion and plastic conubes that connect together easily to create various shapes and styles that are not possible with the pop-up frame. Gridline creates a seamless graphic look using either full color graphic or fabric panels. It is very easy to reconfigure Gridline for a fresh look, different dimensions, or new use.

CLASSIC

This 10' wide display includes hardware, (5) graphic panels, (4) 50W lights, oval shipping case and mural podium wrap.

118"W x 92"H

add curved header
